

How Aston Health Reached New Heights Through a Custom IT Project With HOCS Consulting

Organization: Aston Health

Location: 41 Facilities Throughout Florida

Industry: Residential Healthcare

Services Offered: Rehabilitation, Extended Stay, Specialty Care and Transitional Care

A Cloud Solutions Project That Far Exceeded Expectations

Aston Health and HOCS Consulting Transform Skilled Nursing Facility Operations Through a Unique Partnership

Challenge

Citadel Care Centers, the New York-based parent company of Aston Health, needed an IT solution to keep their growing enterprise connected. Sister company Aston Health was running its own operation of 41 skilled nursing facilities spread out in and around Florida. With numerous healthcare facilities, multiple fractured systems and thousands of employees, Aston Health needed an IT solution that could consolidate the extensive organization under one roof.

With HOCS Consulting leading the way, the project was a big success. We appreciate their attention to detail and commitment to doing the job well.

Solution

For the experienced HOCS team, the solution was in the cloud. Cloud-based tools, applications and technologies could allow the sprawling infrastructure to work seamlessly as one consolidated unit. However, moving data systems, devices, processes and people to the cloud is always a challenge. It requires thoughtful planning, years of on-the-job training, industry expertise and a dedicated team with a “get it done” spirit.

Results

The massive cloud migration project finished on budget and on time. Over the span of eight months, the partnership between Aston Health and HOCS yielded even better outcomes than either party expected. Today, Aston Health continues to provide cutting-edge technology, personalized care and luxury appointments to more than 5,000 patients who trust them with their care.

Through its partnership with HOCS Consulting, Aston Health has experienced improvements such as:

Increased Efficiencies

Tools like automated user provisioning save valuable time and reduce errors by increasing consistencies and organization.

Advanced Cybersecurity and Data Protection

Tighter encryption and thorough security audits boosted security and far exceeded industry compliance requirements.

Opportunities for Innovation

New technologies provide automation capabilities that streamline, scale and speed up processes.

Thoughtful IT Solutions That Rise Above Any Challenge with HOCS Consulting

HOCS Consulting's requirement-gathering processes, expert business and technical skill sets, extensive healthcare IT experience and can-do spirit help companies like Aston Health work smarter through innovative technology. Reach out to HOCS Consulting when you're ready for IT solutions that work for your business.

HOCS Consulting Is Known for:

- Expert technicians
- Custom, full-service, end-to-end IT solutions
- Increased focus on cybersecurity
- Maximizing IT ROI
- Unparalleled customer service
- Elite IT services including managed IT, cybersecurity, data access control, cloud, compliance, consultancy and business continuity

This was a massive project consolidating data, devices and systems across 41 locations in and around Florida. We're pleased with the outcome and consider the project a success.
